

BIRDY SWIM

Metal drinking trough to plant, watering spot for birds

Provide birds with a watering spot, that's as practical as it is elegant.

Benefits

A good action for biodiversity !

Provide birds with a watering spot, that's as practical as it is elegant. To be planted, deep enough to ensure stability when the birds come to rest on it. It can also be used as a bird bath, as some bird species like to play in the water, or as a bird feeder when few seeds on it.

Thanks to this watering and decorative stake, you can discreetly watch the birds come and go in the garden.
